

Success in the medical engineering market with flexible and flex-rigid PCBs

Dear

In the fast growing market of medical technology the attributes **trust - responsibility – reliability**, which enabled Varioprint to make its mark internationally, are gaining significant importance. Products of the highest quality and technology together with the utmost reliability, as for example the flexible and flex-rigid PCBs, are highly valued by our customers in the medical industry.

We are proud to have acquired another well-known customer from the field of medical engineering technology whom we may supply with innovative flex-rigid PCBs.

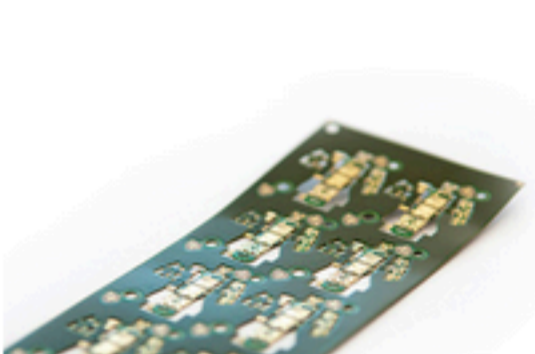

Our investments in state-of-the-art pico-laser technology and the most modern electroplating equipment in Europe, as well as our experienced engineering team are the pillars of this success.

Our experience with the specifications of medical technology, as process capability calculation, FMEA, as well as extensive qualification processes support the requirements of our customers ideally, and allows our production to satisfy the highest quality standards.

Examples are the successful manufacturing of implantable systems and the production of ultrafine conductors (50µm) for instance in hearing aids for our international customers. These are only two examples for Varioprint's development to becoming a leading producer in the field of medical technology.

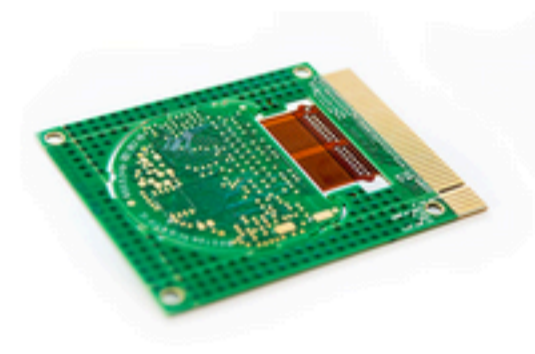

Do not hesitate to contact us. We are pleased to advise and support you in this challenging segment of products.

Flexible circuit for hearing aids

Flexible circuit for hearing aids from polyimide with high demands on surface quality, µVias and via drilling.

Flex-rigid circuit board for implantable device

Flex-rigid circuit board from polyimide and high TG FR4, with flexible inner layer and Coverlay stiffener.

45 Years of Varioprint – Celebrating with our staff

Our 45-year company anniversary was celebrated on Lake Constance, for once not with our customers and suppliers, but with our employees.

A colorfully dressed group of more than hundred people entered the boat that was decorated in Caribbean style at Rorschach Harbour. In the tropical heat the sounds of the steel band provided the proper Caribbean atmosphere and the exotic buffet was thoroughly enjoyed. The team spirit was cultivated, a passion held high in our company.

The Varioprint team wishes you a lovely summertime and a successful start in the second half of the year.
